Dynamic and innovative front-end developer with 3 years of experience in building responsive, user-friendly web applications. Skilled in HTML, CSS, and JavaScript frameworks, seeking to leverage expertise in creating visually stunning and highly functional.

TECHNICAL SKILLS

- Proficient in HTML5, CSS3(Bootstrap,Tailwindcss), JavaScript,Typescript.
- Experience with modern JavaScript frameworks/libraries (React.js)
- Responsive Web Design Principles
- Cross-browser compatibility testing
- Version control systems (e.g., Git,Github)
- Knowledge of UI/UX principles
- Database (Mongodb,Postgres)
- Backend (Express js, Supabase ,Firebase)

INTERNSHIP

Oasis Infobyte, (Sept.2022 – Nov.2022)

- Designed and developed visually appealing and intuitive user interfaces for multiple client projects.
- Worked closely with designers to translate wireframes and mockups into functional web pages.
- Collaborated with cross-functional teams in an agile environment to deliver projects on time and within budget.

Txon – web development, (Jan. 2022 – Apr. 2023)

- Developed responsive and accessible web applications using HTML5, CSS3, and JavaScript.
- Utilized modern front-end frameworks like Bootstrap to build dynamic and interactive user interfaces.
- Collaborated with cross-functional teams, including designers, project managers, and back-end developers, to deliver high-quality products..

PROFESSIONAL EXPERIENCE

Volunteer Lead Frontend Developer

Medicx Healthcare (Startup) Remote October 2024 – Present

Lead the frontend development of a healthcare web platform using React.js, JavaScript, and Tailwind CSS.

Implemented advanced image optimization techniques using Cloudinary, reducing image load time by up to 10× and significantly improving user experience and page performance.

Enforced best practices in component reusability, performance optimization, and version control.

Tech Stack: React.js, JavaScript, Tailwind CSS, Cloudinary, Formspree, HubSpot, Git

Volunteer Full-Stack Developer Loan & Financial Services Startup

Creditpay(Startup) Remote January 2025 – Present

Refactored and migrated the backend codebase from JavaScript to TypeScript, improving type safety, maintainability, and overall system reliability.

Built and optimized RESTful APIs using Express.js and MongoDB for loan processing and user management.

Implemented Redis for caching frequently accessed data, and improving system performance.

Tech Stack: TypeScript, Express.js, MongoDB, Redis, Node.js, Git

PROJECTS

Greenacy-clone

Using React, Tailwind css ,Framer motion, Typescript.

- Developed a modern, responsive frontend application with smooth animations and reusable components.
- Focused on performance optimization, accessibility, and clean UI architecture.

Task management

Using HTML, CSS (Tailwind), JavaScript and Supabase

- Implemented a secure admin panel for task assignment and staff management.
- Integrated authentication and real-time data handling using Supabase.

E-resources

Using React, Tailwind, Node and Supabase

- Resources material for students.
- It serve as secure data storage for academic resources.

Academic Portfolio

Using HTML, CSS, JavaScript, Mongo dB, Express js.

- Built an academic portfolio platform showcasing lecturers' profiles and experiences.
- Designed backend APIs for managing academic data securely.
- Project completed in association with Annetcom Technologies.

EDUCATION

Adeleke University, Osun state, Nigeria

Bachelor of Computer Science Nov, 2021–July, 2025

Languages

Fluent in English (native)
